User Toolkit

Wondering how to start your new journey?

Don't worry. We've got you covered with the essentials.

Pick a Location

See-View

Start by choosing where you'd like to wall-mount your Aura. You'll need an ethernet (Cat6) or power cable running through your wall. Contact us if you have questions.

A great place to mount Aura is on the wall near the entrance to the room at conversation height, approximately 5 - 5.5ft. You will find that Aura fits well in similar locations as thermostats and light switches.

Mark the Spot

Placement

Hold the wall mount (included) up to the wall you've chosen to mount Aura, to mark the screw locations in pencil.

Drill the Holes

Fasten

Drill holes for the wall screws and a center hole for the ethernet and power cable.

Mount the Bracket

Secure

Install the wall mount to the wall using the provided screws. Make sure the bracket is snug, but no need to overtighten.

If you misplace the screws, let us know and we can help you get replacements.

In some cases, you'll want to get drywall anchors as well to help the screws hold.

Plug in Aura

Wiring

Connect the ethernet port (provided) to your ethernet cable, then plug the DC-jack end of the adapter into the bottom of Aura.

When Aura is ready to set up you'll see the LED breathing blue.

Wall Mount Aura

Fixing

Bring the Aura to the wall mount while feeding the ethernet and power cable through the wall. It should fit snug to the wall mount.

Download the Aura App

Install

Configuring Aura is done on the Aura iOS / Android app using your Aura credentials.

If you haven't created your login, you may use the startup page to create one or reach out to support@aura-smart.com for help.

Add Aura

Connect

Log in to the app, navigate to the device list, and tap on the device ID being displayed. Proceed to update the device and get started.

If you haven't created your login, you may use the startup page to create one or reach out to support@aura-smart.com for help.

Connect Aura

Take Control

Follow the steps outlined in the app to connect Aura to your space.

If you run into any problems, don't hesitate to contact support@aura-smart.com.

Specifications

Aura Dimensions
